

Balcony and Window Safety

Enjoy your windows and balconies responsibly.

Balcony safety:

- Storing items and using BBQs on your balcony is a fire and safety hazard.
- Dry your laundry inside on a drying rack, not on the balcony.
- Always watch pets when on the balcony.
- Please don't throw garbage or cigarette butts off your balcony.

Window safety:

- Window AC units can be a safety hazard. Consider floor AC units instead.
- Please don't damage, alter, or remove window locks or screens.

If you see a tenant using their balcony improperly, or to report any balcony, window lock or screen that needs repair, contact your Superintendent or the Tenant Support Centre at **416-945-0800** or **Support@TorontoSeniorsHousing.ca**.
