Balcony Reminders

Let's work together to keep our building clean, safe and enjoyable for everyone.

Keep food inside

Store food inside your unit in sealed containers.

Use designated areas

Dispose of garbage and food waste in the designated garbage or recycling areas.

No food or pet food

Do not store food or pet food on your balcony.

No garbage or food waste

Do not leave garbage or food waste outside.

Do not feed wildlife

Please don't feed wildlife from your balcony.

Why it matters:

Food and waste on balconies can attract wildlife like raccoons, squirrels and birds. This can cause a nuisance, damage property and create health and safety risks for others.
